

Commitment Policy to the FSC® Chain of Custody

The main activity of ABETO DESIGN S.L. is the manufacture and installation of interior furniture, mostly made of wood, a natural, renewable, and recyclable material. This demonstrates our commitment to the environment and to responsible consumption.

To this commitment, we wish to add the implementation and maintenance of the FSC Chain of Custody certification scheme, in accordance with its current Standards and Trademark Use Rules, in order to promote the consumption of wood sourced from well-managed forests: in an environmentally responsible, socially beneficial, and technically viable manner. This commitment includes compliance with labor and occupational health and safety requirements as defined by FSC and Spanish legislation, guaranteeing the absence of child labor or forced labor, non-discrimination in employment, and respect for the associative and trade union rights of our workers.

Through this commitment, we also aim to meet the demands of our customers, who, like us, are aware of the need to promote these standards and convey their message to the final consumer.

This commitment will be communicated to employees, suppliers, and customers, and will be made available to any other interested party upon request.

Likewise, information will be provided, upon request, regarding the certified products that can be offered and our procedures for receiving comments, complaints, or claims.
